

Who Is It For?

The Enable Ability Inclusive Playscheme is for children that require extra support because of diagnosed moderate levels of physical disability, learning difficulty, Autism / Asperger Syndrome, and / or disability-related challenging behaviour. Additional staff members with specialist training are employed to meet the needs of your child and to help him / her to access activities that are appropriate to his / her needs at each of the listed settings.

How Do I Book?

You are encouraged to contact the setting that you are interested in directly to find out if the environment will be suitable for the needs of your child.

Please telephone or email for a booking form; these must be completed and returned to Enable Ability (via post or email – details on back of flyer) as soon as possible.

Please indicate a first and second choice if possible in case a particular scheme becomes over subscribed - in which case places will be allocated on a first come first served basis.

Further Details

The Inclusive Playscheme will be based at a number of separate venues, each of which provides for both mainstream and special needs children. Please contact individual settings for additional details relating to costs and what they include.

Please note that the costs will be at the individual rates shown.

For further information about any of our services please contact:
